PM:

Brunch

followed by

drive back

home to arrive

by 6pm.

The lake and
NARSINGH BAGH
were built in 1617 A.D.
as a shooting lodge for
Prince Shah Jahan. The
palace and the lake were
later maintained by the
ruler of Dholpur. The
lake attracts a large
number of winter
migratory birds such as
pintail, shoveller, red
crested pochard,
common pochard, tufted
duck, garganey teal,
wigeon and many more.

Wake up to the sound of chirping birds,
help us in our daily farming routines,
spend time interacting with people
learning about their culture and way of
life, take cycling tour to nearby areas
around the lake. Or you can just be in
your own space, where there is actually
no one between you and your thoughts.
Feel clear and inspired with a break from
the busy you.

The best way to experience the Chambal Sanctuary is to take a BOAT SAFARI in Chambal river, experiencing the magnificent Ravines on one side of the bank and happening wildlife on the other.

Experience the natural habitat of Gharials, Crocodile, River Dolphins, Turtles and close to 300 species of resident and migratory birds.

Enjoy a JEEP SAFARI through the ravines. Start with visiting the Shergarh fort. Treading the small muddy tracks among the ravines and along the banks of the river, we explore village life through small villages hidden deep into the ravines along the Chambal river.

The area we cover in JEEP SAFARI through the ravines Starts with visiting the Shergarh fort. Through the small muddy tracks among the ravines and along the banks of the river, we explore village life through small villages hidden deep into the ravines along the Chambal river. Life is full of hardships as the land available for agriculture is scarce.

Once the lair of dacoits, ravines of Chambal are mute witness to all the blood and fights we only read about now.

Is it a road trip? A birding excursion? A
photography tour? A wildlife safari?
an offroad adventure?

ITS ALL OF THIS AND MUCH MORE

cost: 17499 per person
(on twin sharing)
